

A review on the classification of microsporidia, a 'Taxonomic Nomad'	1-9
K. Chandrasekharan, J. Justin Kumar and V. Sivaprasad	
Molecular marker based selection of parents for breeding thermo-tolerant silkworm breeds/hybrids suitable for tropics of india	10-16
S. M. Moorthy, N. Chandrakanth and V. Sivaprasad	
Impact of crop diversity on the pest incidence and conservation of natural enemies in mulberry eco-system	17-22
J. B. Narendra Kumar, B. T. Sreenivasa, N. Morrison, R. Meenal and V. Sivaprasad	
Mycoendophytes of mulberry and their antagonism against soil borne pathogens	23-29
Pratheesh Kumar, P. M, H. Dawa Dolkar and V. Sivaprasad	
Freeze killed house fly pupa for multiplication of <i>Nesolynx thymus</i> Girault (Hymenoptera: Eulophidae), an ecto-pupal parasitoid of the silkworm uzi fly, <i>Exorista bombycis</i> (Louis)	30-34
Sujit Nade, J. B. Narendra Kumar, S.J. Belgumpe, A. D. Jadhav and V. Sivaprasad	
Influence of mounting techniques on quality of mulberry silkworm cocoons - farmer participatory research	35-41
A. Mahimasanthi, S. B. Nagaraja, M. Rekha, G. S. Vindhya and V. Sivaprasad	
Impact of CPP on sericulture development in a major bivoltine cluster area in the Karnataka state	42-47
P. Sudhakara Rao, N. Shivashankar, J. M. Munshibasaiah, M. T. Himantharaj and V. Sivaprasad	
Efficacy of botanical extracts against <i>Fusarium solani</i> and <i>F. oxysporum</i> causing dry root rot of mulberry	48-54
A. Amreen, G. S. Arunakumar, D. Pooja, B. N. Gnanesh, Vinod Kumar Yadav and V. Sivaprasad	
Influence of various diets on the longevity and reproductive performance of <i>Trichomalopsis uziae</i> Sureshan & Narendra Kumar, an ecto-pupal parasitoid of the tachinid fly, <i>Exorista bombycis</i> (Louis)	55-61
J. B. Narendra Kumar and D. Manjunath	
Development of productive polyvoltine breeds of <i>Bombyx mori</i> L. tolerant to high temperature and BmNPV	62-72
Dayananda, V. Sivaprasad, S. B. Kulkarni, M. Balavenkatasubbaiah and Kariyappa	
Women development and empowerment approach in Sericulture	73-75
G. S. Geetha
